POST-CONSTRUCTION CLEANING

Decision-Maker Lead List

General contractors, builders & developers | Southaven, MS + 40-mile radius

Prepared for Magnolia, LLC | September 2026

Covers: DeSoto County MS • Memphis • Bartlett / Collierville / Germantown / Arlington

How to read this list

Everything here comes from public business listings (company websites, Chamber and BBB/Bluebook listings, industry directories). **Blank cells mean we could not verify that item** – nothing was guessed or invented, because a wrong name at the trailer door costs you credibility.

Priority 1 = call first (local, or multifamily/commercial fit, or contact data in hand). **Priority 2** = second wave. **Priority 3** = edge of your service radius. No active-project status is confirmed for any account yet; a Priority 1 becomes Tier A the moment you confirm a job nearing turnover.

Direct emails and cell numbers for individual decision makers are not in this list. They are not reliably public. Get them by calling the main line and asking for the superintendent on the active job, visiting job trailers, or through paid sources such as ZoomInfo, Apollo, or BuildingConnected.

Best decision makers by role: **Superintendent** (feels the dirty building first and often has authority to hire a cleaner), **Project Manager/Estimator** (owns subcontract buyout), **Office/contracts admin** (onboarding and insurance certificates).
