

New Leads – Post-Construction Cleaning | Southaven MS + 40 miles | 50 companies not yet contacted

Everything on your 3 printed pages is excluded from the new leads and marked CALLED in the last section. Src: **W** = found on the web (phone from public directories, not confirmed against the company's own site). Names/titles come from company sites, LinkedIn and directories and may be out of date. Direct cell numbers and personal emails are not included because they aren't reliably public. Where no name is shown, ask for the superintendent on the newest active job, then the project manager.

TIER 1 – CALL FIRST: commercial/industrial GCs, multifamily builders and production builders (superintendents/PMs can hire a cleaner; work repeats every project).

#	Company	Area / address	Phone	Email	Decision makers (name – title)	Type	Src
